THE DISTRICT shall have the right to install the water meter and the pipe necessary to connect the meter to the property of the customer at a point to be chosen by the District. (Though the customer may flag his/her preferred meter location, the final decision of its placement lies with the Pecos County WCID #1.)

If the meter is to lie within a fenced area, the flagged meter site should be near a gate; this will enhance the meter's accessibility for the meter reader.

PLEASE DO NOT lay any water lines of your own until Pecos County WCID #1 has installed the meter; the District is not obligated to set the meter to your line.

IF THIS REQUEST FOR SERVICE IS APPROVED, IT WILL BE VALID FOR 30 DAYS ONLY.
